Ward 7 message

by Councillor Druh Farrell

Plans for Calgary's next C-Train line are taking shape

Calgary Transit is close to finalizing the route for the North Central LRT, which will extend from the downtown all the way to Harvest Hills. The North Central route is the north half of the Green Line, a major north/south bus-rapid-transit and LRT line outlined in RouteAhead, Calgary's 30-year strategic plan for transit. Rather than the high floor trains that we're used to, the Green Line will use less costly low-floor technology.

The North Central LRT is needed for residents and businesses along the major corridors in the north. Almost 50,000 cars travel along Centre Street, Edmonton Trail and 4th Street NW corridors every day, not including trips on Deerfoot Trail from the North Central neighbourhoods.

Centre Street, at 30,000 bus passengers a day, is the most successful transit route in Calgary, far surpassing the 18,000 daily vehicle counts. A victim of its own success, the transit demands on Centre Street exceed supply. An LRT would provide faster, cleaner, and more efficient trips for over 100,000 passengers.

The Green Line will be designed with sustainability in mind. Among other guiding principles, the Green Line will provide and enhance:

- connections between people and places through walking and cycling, and links with new and existing bus routes,
- neighbourhood development and revitalization,
- vitality of local businesses by promoting business development and access,
- Complete Streets including landscaping, urban design, and pedestrian and cycling networks.

Over the coming months, City staff will conduct further analysis and engage with the public to determine the final alignment of the Green Line. One of the critical decisions remaining is whether to run the line up Centre Street or Edmonton Trail and whether to place the tracks above or below ground along certain sections. Staff will report back with their recommendations to Council by the end of 2014. You can find out more by visiting routeahead.ca.

SMILE clinics

When you see The Alex Dental Health Bus cruise by it catches your attention. It is a full-sized luxury coach that has been modified with two complete dental operatories, a digital x-ray unit, and an automated wheelchair lift. That, and the fact that it's huge with a custom paint job, makes it hard to miss.

But to Dr. Matt Karavos, the real value of the bus is its ability to reach Calgary's most at risk young people and provide them with oral health care. "When I heard about the Alex Dental Health Bus program and the incredible need that its school program had uncovered, I knew we had to be involved in the solution," says Dr. Karavos.

That's when Dr. Karavos and his team started working with The Alex Community Health Centre to start the SMILE Clinics.

SMILE Clinics see children that are in need of dental treatment and are referred through the Alex Dental Health Bus School Program. All treatment is provided at no additional cost to the parents, and Crescent Heights Dental Clinic donates time and supplies. The most recent clinic in April received supplies donated by Henry Schein Canada and Patterson Dental Supplies as well.

Since June 2013, Dr. Karavos and his team have partnered with The Alex to run 6 SMILE Clinics, providing treatment to over 100 of Calgary's kids that are most in need. And there are no plans to stop.

"What we saw at our first clinic brought tears to the eyes of my team ...," said Dr. Karavos. "We were prepared to perform a lot of minor care, but the levels of advanced decay in some of these kids is beyond what you want to see as dental professionals - we simply can't let kids live with this kind of risk and pain."

Fostering Safe Communities

It's that time of the year again: spring cleaning! Here are some things to keep in mind during your spring cleanup:

- Complete a walkthrough of your property to ensure that all buildings and structures are in good repair, there is no vandalism or graffiti and no wildlife has taken up shop over the course of the winter. If you see any graffiti on your property, please report it to The City of Calgary by contacting 311 and remove it as soon as possible.
- If you plan to partake in any construction projects, please ensure any material stored in the yard is not visible from outside of the property. Only an appropriate amount of materials for the current building project is permitted and it should be stacked in an orderly and safe manner.
- Many community associations host community cleanups in the spring. These events are great opportunities to properly dispose of unwanted household items, such as electronics or old furniture. Contact your community association for the date of the cleanup closest to you.
- Hazardous materials such as gasoline, motor oil and paint cannot be disposed of with your household garbage. Visit calgary.ca to find a list of Throw n' Go locations and fire stations with special storage depots for proper disposal of these materials.

Having a tidy property increases personal and community pride. You, your family and your friends will feel comfortable and safe enjoying your yard and spending time outside.

For more information, please call 311 or visit www.calgary.ca.

We are now
accepting new patients!
Early morning, evenings and
Saturday appointments available.

Window & Balcony Safety

With the return of warmer weather, Alberta Health Services EMS would like to remind parents of an often overlooked hazard in the home – open windows. Every year, paramedics respond to emergencies where a child has fallen from an open window in their house— often from the second floor. Falls such as these are preventable by taking time to assess your home and ensuring windows are safe.

Windows and screens

- Move furniture such as cribs, beds, stools, and change tables away from windows to prevent access to them.
- Keep drapery cords out of childrens' reach. Wrap excess cord around cleats or tie-downs to avoid a choking hazard.
- Remember: screens are designed to keep bugs out, NOT to keep children in!

Balconies

- Do not underestimate a child's ability to climb. Furniture and other items stored on balconies and decks can be used to climb resulting in falls over the railing.
- Consider installing a balcony guard to eliminate access between the vertical bars of a balcony or deck.

Further prevention tips

- Children aged one to four are at highest risk of falling from a window or balcony.
- Direct supervision of children is the single most effective way to prevent falls from windows and balconies.
- Consider installing safety devices which limit windows opening to a maximum of 4 inches or 10 centimeters.
- Ensure the safety device can be released quickly so the window can be used for escape in case of fire or other emergency.

AHS EMS is proud to be a member of the **Partners Promoting Window and Balcony Safety**. Take time to assess your home for window and balcony hazards and eliminate the risks before a preventable fall occurs.

Crescent Park Playground Open House; April 29th Crescent Heights AGM

Our much loved Crescent Park playground has to go and CHCA needs your help to make the new playground fabulous and fun for our community children!

Come to the playground Open House at the April 29th Crescent Heights AGM. We will have poster boards of the initial design, catalogs of playground equipment and a Little Tykes Commercial sales representative to answer any questions.

Why are Playgrounds Important?

Playing outside is a vital part of childhood development, nurturing the advancement of physical strength, coordination and friendship.

Undirected play allows children to learn how to work in groups, to share, to negotiate, to resolve conflicts, and to learn self-advocacy skills.

What do Playgrounds do for the Community?

As a fixed asset in the community, a playground structurally symbolizes, promotes and reinforces the importance of childhood. A playground is a spirited symbol of community devotion, welcoming all into the fun.

They provide people with an informal gathering place to be physically active, socialize, relax, build community, connect with the natural world and provide a venue for children and adults of different backgrounds to connect.

Play is incredibly important to the development of children's social, emotional, cognitive and physical development, as well as creativity and imagination.

Why do we need you?

The CHCA in partnership with Parks Foundation Calgary and the CFEP grant have tentatively raised enough money for a standard playground, but need your donations to make it extra special.

This Playground will be a part of our Community for the next 20+ years, so let's work together to make it the best we can for our children and future generations!

To donate, please contact the Crescent Heights Community Association at 403.276.1002 or email CHCAboard@hotmail.com. Tax receipts are available for any donation over \$25.

The P.U.P.P.Y. Program

Help make our parks #1 by picking up #2!

Did you know that pet waste left in yards and parks is washed into storm drains and is the leading contributor to storm water contamination? In fact, pet waste is classified as a dangerous pollutant and is in the same category as toxic chemicals and oil!

The P.U.P.P.Y. (Pick Up Pooch's Poo Yourself) program was established in 2011 to educate Calgarians about the importance of picking up and disposing of pet waste and to make participants familiar with responsible pet ownership and sustainable park use. This program encourages Calgarians to participate in P.U.P.P.Y. events that focus on park stewardship to keep our off-leash areas safe and healthy for pets, people and wildlife. Experts will be on-hand to share information on a variety of pet-related topics; volunteers will lead engaging, interpretive programs; and supplies will be available for community residents to "pitch in and pick up" waste.

What can you do to keep off-leash areas safe and clean?

Always have pet waste baggies with you when you walk your dog. Pick up your pet's waste and dispose of the bag properly in a waste receptacle. Model responsible behaviours and encourage other park users to pick up their pet's waste. Participate in the P.U.P.P.Y. program events to learn about sustainable park use and responsible pet ownership. Organize a community cleanup in your favourite off-leash area or park by registering for a green project.

Book review by Judith Umbach

419 by Will Ferguson

If you have an email account, chances are you have received at least one scamming note. You are smart and you erase them. Laura's father was not; he responded. He fell into the abyss of "419", Nigerian slang for perpetrating a scam. In his novel, *419*, Will Ferguson paints the fear and anger of lives dispossessed – those of both the scammed and the scammers.

With dexterous intricacy Ferguson inserts us into the stories of Laura, habitué of Northhill Plaza in Calgary; Nnamdi, boy and man from a once-remote part of Nigeria; Amina, a destitute pregnant woman walking away from her identity; and, Winston, skilled self-taught Lagos internet scammer. That these stories converge without obvious contrivance is the Ferguson's triumph.

After their father's death, Laura's family is incensed that he was a victim of an internet scammer, to the extent of losing all his financial assets. Laura's mother leaves the mortgaged family home, moving into the basement of her son's large home in Springbank. Slowly the police convince the family that internet scammers are absolutely anonymous.

There is no way they can recoup money sent via wire transfers to someone with innumerable aliases.

Laura, however, is an editor. She believes the pen is more powerful than the sword. Laura separates out a single writer of notes from the chaff of purported government officials and other veracity-inducing supporting actors. An author's errors and quirks leave an indelible signature. Laura seeks revenge.

Subtext to this well-woven tale is the question of whose morality is superior. The internet scammers self-justify their illegal trade as an extracting of revenge on white colonialists, even though the criminals pursue victims of any race with enthusiastic and perverse fairness. Plus, victims are greedy or they wouldn't respond, right? Nnamdi is a genuinely generous person who undertakes illegal tasks to survive and be part of his community. Amina has nothing; isn't she entitled to something in this world? Laura would rather be dead than accept her father's undeserved fate! Fate: is it cast in stone?

She takes 17,280 breaths daily. Make sure every one is healthy.

We put more inside a Landmark home because of what you put inside; your family, your life, and your future.

Superior features like low VOC (volatile organic compounds) materials, an active heat recovery ventilator system and triple-paned, low-E, argon-filled windows.

Advanced construction techniques create a superb fit so air moisture – and mold – stay outside where they belong.

And the style? Why, breathtaking of course.

You'll find this kind of superior quality in Landmark duplexes, townhouses and homes in seven communities throughout Calgary and Cochrane. Starting from \$310,000.
