

# Crescent Heights

planning and development project

## final open house

Saturday, November 7th 2015, from 10am to 12pm  
Crescent Heights Community Hall

The Faculty of Environmental Design Urban Lab at the University of Calgary in collaboration with The Crescent Heights Community Association (CHCA) is working on a comprehensive plan to address the existing and forthcoming issues associated with land use and development in the neighbourhood. The Crescent Heights Planning and Design Project will focus on current urban development issues and produce a final report that addresses the most pressing issues and provides potential strategies for future development in the neighbourhood.

The Issues and Opportunities Workshop on July 18th 2015 provided the project team with a strong direction; a series of design strategies were developed and presented in an Open House on September 12th 2015 where we gathered the community's input. We would like to invite all community members to join us and provide your final feedback on the proposed strategies. We look forward to seeing you.

Please join us at your leisure  
from 10am to 12pm

at the Crescent Heights  
Community Hall

on Saturday Nov. 7th 2015
